ATH28535 CDAU #619090 / 620060
 ATH28536 CDAU #619038 / 620033
 ATH28537 CDAU #621011 / 621081

Singamas has built the largest number of 60ft containers with this version representing the 619xxx-621xxx series. Similar to the Dong Fang containers side and front arrangements, this version features reinforced ribbed rear doors.

Undecorated

ATH28538

Create your own 60ft container owner. One of each body styles are included. This undecorated "kit" includes the rear door latches and warning placards still on the sprue for easier application of decals. Final assembly is left to the modeler.

PROTOTYPE AND BACKGROUND INFO:

These extra long containers were introduced in 2015 for the Canadian market specifically. From Ontario westerly, Canada allows Long Vehicle Combinations (LVC) up to 40 meters in length; that is two full size semi-trailers behind a tractor. The 60ft container is easier to drive than tandem trailers and is perfect for bulky, but light cargo.

The containers are built by Singamas Container and Dong Fang Container International and are shipped empty to Canada. They are typically carried in the top position of a 53ft well car on top of another container.

MODEL FEATURES:

- First time a 60' container has been offered in HO Scale
- Athearn is producing Versions 2 and 3 of these containers
- The 60ft container has the typical 40ft attachment points and are a High Cube configuration
- Separately-applied door latches and etched metal safety placards
