PROTOTYPE AND BACKGROUND INFO:

At the turn of the late 1800s passenger train travel was much more like the stage coach that it had replaced. The Overton style passenger car is iconic to this era, a time of great expansion for the railroads with the transcontinental route and the settling of the Wild West. The railroads brought much change to the landscape of North America. Passenger trains of the time were the best way to get across the continent. The Overton passenger cars facilitated this new era of transportation.

Building on a rich tradition started in 1946, the Athearn® brand is home to the hobby's best-loved models. Athearn has brought the joy of model railroading to you for 75 years, starting from our classic 'Blue-Box' kits to our most recent Genesis® 2.0 line. With accurate detailing and painting, Athearn is the brand that any hobbyist is proud to own and operate. No matter your era or favorite railroad, Athearn truly is "Trains in Miniature."
