- Separately applied brake wheel and ladders
- Machined metal wheels with RP25 contours operate on all popular brands of track
- Weighted for trouble free operation
- Body mounted McHenry operating scale knuckle couplers
- Window packaging for easy viewing plus interior plastic blister safely holds the model for convenient storage
- Replacement parts available
- Minimum radius: 18”

**Prototype History:**
Richmond Tank Car was based out of Sheldon, Texas, and began operation in 1962. As a car builder RTC constructed tank cars for multiple railroads and leasing companies.

**Southern Pacific**

Southern Pacific experimented briefly with Fuel Tender operations in the late 1980s. SP 700, was to be the only one of its kind. See Genesis GP40-2 announcement

**UTLX / Alberta**

These cars were leased to the Alberta Government and carried the same distinctive logo that was more commonly associated with covered hoppers.

**All Road Names**
