PRIMED FOR GRIME MODELS FEATURE:

- Faded base colors matched to the prototype, the perfect starting point for adding grime and rust
- Patches applied and shaped per road number matching each corresponding side to the prototype
- Duplicated look and feel of "In Service" equipment; "Tattered and Torn" just like the real thing
- Some Prime for Grime models feature paint scheme variations

All Road Names

PROTOTYPE AND BACKGROUND INFO:

During the 1960's, Ford Motor Company, Pullman Standard and Santa Fe pooled their resources to develop a standard boxcar to meet the transportation needs of automobile manufacturers in the United States. Delivered in 1965, the Pullman Standard auto parts boxcar is the most prolific example of this type of freight car. It ultimately changed the face of automobile manufacturing and rail transportation.

MODEL FEATURES:

- Fully-assembled and ready-to-run out of the box
- Highly detailed, injection molded body
- Highly detailed doors
- 100-Ton roller bearing trucks with extended drawbar
- Screw mounted trucks
- McHenry operating knuckle couplers
- Minimum radius: 11"
- Accurately painted and printed
- Separately applied brake wheel
- Machined metal wheels
- Era: Early 1960s thru 1970s
- Operates on Code 55 and 80 rail
- Recommended radius: 15"

\$29.98 SRP - Individual
