 ETA: March 2007

Western Maryland F7A / F7A-F7B / F3A-F3A

Athearn Genesis F units now come with factory installed onboard sound and DCC decoder!

- Individual sound boards installed in both the A-unit and B-Unit.
- Sound units are compatible with both DCC and DC operations.
- In DC mode, you can program an MU lashup with lead unit only horn, bell and lights.
- In DC mode, all sound features are operated by a wireless handheld remote and NO additional control box is required to operate advanced sounds in DC operation.
- Six-button remote control allows control in the DC mode of the horn, bell, coupler crash, break squeal, dynamic brake and brake air release.
- Additional DC mode programmable features allow for different bell and horn tones, coupler on/off, bell rate, directional lights on/off and volume control.

In DCC mode, all functions are NMRA compatible.

- Researched from the prototype to match specific units
- Dynamically Balanced five pole skew wound motor and flywheels
- Body matches exact model and phase for prototype
- Separately applied photo etched metal and injection molded detail parts
- Genesis improved drive line
- All windows glazed
- Directional constant lighting
- Cab interior
