ATH18826  N 50’ PS-1 Plug Door Smooth Side Box, ATSF #524045
This unique car was painted by the Santa Fe, and was subsequently signed by many people in support of the SPSF merger proposal. Despite this, the merger was subsequently denied by the ICC.

- Three road numbers
- See through metal roof walk
- Scale profile brake wheel
- Detailed under frame
- Roller bearing or Bettendorf trucks
- Fully-assembled and ready-to-run out of the box
- Accurately painted and printed
- Highly detailed, injection molded body
- Machined metal wheels
- Screw mounted trucks
- McHenry knuckle couplers
- Weighted for trouble free operation
- Clear plastic jewel box for convenient storage
- Operates on Code 55 and 80 rail
- Minimum radius: 9 ¾”

PROTOTYPE AND BACKGROUND INFO:
Pullman Standard introduced the all steel PS-1 box car in several different sizes including 40’, 50’ and 60’ lengths. Multiple door configurations and styles made these box cars very flexible. Pullman Standard had their own signature details, such as rolled non-terminating ends, and bow-tie stamped metal roofs. These were signature elements that identified the PS-1 among the other freight car builders of the time.
